

## The Core Program

### The 4 core modules of THE CORE PROGRAM are:

1. **Self Mastery** – An essential module that offers a 12 month program of Self Mastery Newsletters, teachings exercises, monthly audio of self mastery practices and divine presence linkups for the self mastery of your energy and consciousness in your everyday life. This module is also known as The Self Mastery Program and is responsible for 25-30% of the transformation that is designed to occur for each student via their completion of this core module of the school. This module consists of 3 units of study.
2. **The Art of Creation** – An essential module which offers a 12 month program of empowerment lessons, creation teachings, journeys and practices, and repatterning processes that open the student to the Science of Sacred Sound, their Divine Voice, and the clearing of the wound with creation so each student may access their power of creation. This module is responsible for 25% of the transformation that is designed to occur for each student via their completion of this core module of the school. This module consists of 2 units of study.
3. **Divine Design** – An essential module that offers training in the co-creation of a series of projects based on sacred art or sacred design with your Divine Presence. Each student receives one project each term to co-create from their Higher Self connection and power of Divine Presence with the instructions on how to access their Creator Consciousness in oneness with their Presence.

This module is responsible for 5 -10% of the transformation designed to occur for each student via their completion of this core module of the school. This module consists of 1 unit of study.

#### 4. **Divine Assistance**

##### **Part A: Divine Assistance from your Student Guide**

This essential module is created via a series of monthly, one hour compulsory personal sessions with your Student Guide. Your mumara or assigned student guide is there for you every month to have special time with you.

This form of support will assist you to ground, connect and expand your focus and energy into embracing your empowerment throughout the training. A personal session with your mumara is necessary so you complete your energy and consciousness shifts each month, and stay integrated with the higher frequencies you are receiving.

As a part of the divine assistance module you are also called to participate in the student forum with your mumara and all other mumaras and students. Each student is asked to spend some time writing in the pod journal every two weeks. The student forum is the place where you share, engage with others from your pod, ask questions and offer support or suggestions, and place your creation assignments. This module is responsible for 10% of the transformation designed to occur for each student via the completion of this core module of the school. This module consists of 1 unit of commitment.

**Part B: Divine Visitations from the Enlightened Masters**

The remainder of this core module is received via the spiritual plane as energy body healings and visitations from the Enlightened Masters that take place in your meditations and when you are resting and sleeping. This component of Divine Visitations from The Enlightened Healers and Enlightened Masters is responsible for 25% of the transformation that is designed to occur for each student via receiving this core part of the program.
